Internship

Student Intern <i>TECHBYHEART</i>	05/2023 – 06/2023 KOCHI, INDIA
---	-----------------------------------

Organizations

NATIONAL SERVICE SCHEME <i>Volunteer</i>	2020 – 2024 Thrissur, India
NATIONAL CADET CORPS	2018 – 2020 Thrissur, India

Projects

GREEN NURSERY WEBSITE

Developed an e-commerce platform facilitating the buying and selling of plants and accessories creating a vibrant marketplace for plant enthusiasts, emphasizing sustainability and offering a seamless experience for transactions and knowledge exchange. contributed in implementation of front-end using html,CSS and javascript.

INTELLIGENT VIDEO SURVEILLANCE THROUGH DEEP LEARNING ANALYSIS

This project aims to develop an intelligent video surveillance system using deep learning to enhance security. By automating object detection, tracking, and behavior analysis, the system will identify potential threats and generate real-time alerts for rapid response. Features like facial recognition and license plate reading will aid in identifying individuals and vehicles, creating a robust, efficient, and accurate surveillance solution with minimal human intervention.
